

# Basic shelving

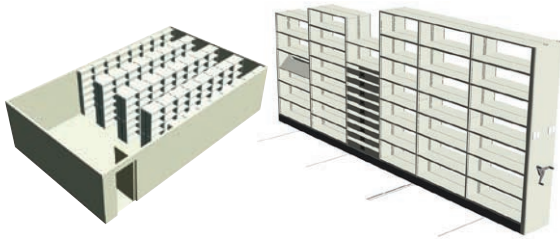

## Sysco®

 **bruynzeel** filing and storage

FOCUS ON CUSTOMER SATISFACTION

# How flexible is your shelving system?

Sysco® is standard available in multiple heights, widths and depths and easily adapts to building constraints such as pillars and ventilation shafts.

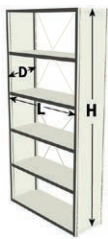

Sysco® can be placed as single shelving against a wall or as double shelving for access from both sides or double deep storage.

Sysco® can easily be extended by its modular set up.

Sysco® can be made mobile at any time.

Sysco® is available in open versions and can be closed by adding roller front doors or sliding doors.

The wide range of accessories allows you to arrange the storage space to suit your requirements.

# Basic shelving - Sysco®

## Benefits

### Focus on flexibility

- Produced according to ISO 9001 and ISO 14001 legislation.

# A Multifunctional and Stylish system

Sysco® is a very solid and multifunctional system. This modular system has numerous dimensions to allow you to utilise all available space, even around pillars, ventilation shafts and other objects. The system provides an economical solution that can be used by multiple users on a frequent basis. All information you need is easily accessible. Whatever filing system you use, Sysco® can be adapted to your needs and wishes. Sysco® is highly suitable for use in offices, archives, repositories, shops and warehouses.

## Focus on flexibility

The sidewalls are available single closed, flush closed and may be provided with perforations to allow ventilation and hence optimum preservation of your documents. Sliding doors or roller front doors further protect the system's contents. The Sysco® system's unique coating process guarantees one hundred percent coverage of steel for a perfect finish. Sysco® is finished in grey-white RAL 9002 but can also be finish in other colour options, including premium powder-coatings in 10 colours and 9 monoform designs.

Sysco® is available in a wide range of dimensions

Depth	Width per section	Height
200, 250, 270, 300, 320, 350, 370, 390, 400, 450mm	800, 1000, 1200mm Section length 900, 1100, and 1250mm: limited choice of accessories	914 to 2994mm in increments of 40mm.

## Focus on multipurpose functionality

A wide range of accessories are available for the Sysco® system, such as frames for suspension files, bookends, full and part height dividers, trays and drawers, all of which are tailored to the most commonly used filing and file management solutions.

## A wide range of dimensions

The flexibility of the Sysco® system can also be seen in the fact that it can be easily adjusted and expanded, and that the racks can be converted into a space-saving mobile system at any time. To put it simply, Sysco® is a sound investment.

Other dimensions available upon request.  
Shelves can be loaded up to 155kg.  
Shelves can be adjusted in 20mm increments.
